

Signal Forge

Activation Guide

Version 0.2.4

Angry Pig Productions

angrypig.studio | support@angrypig.studio

1. Where to Buy

Signal Forge is available exclusively through:

- angrypig.studio - Official website
- Payhip - Direct digital delivery

After purchase, you receive an email confirmation with your license key.

2. Finding Your License Key

Your license key is included in:

- The purchase confirmation email from Payhip
- Your Payhip account under 'My Purchases'

The key is a unique string of characters. Keep it safe - this is your permanent license.

3. Activating Signal Forge

- Launch Signal Forge
- If this is your first launch, the activation dialog appears automatically
- If you need to re-activate, go to Settings > License
- Paste your license key into the field
- Click 'Activate'
- A green checkmark confirms successful activation

Your license is stored locally. You will not need to re-enter it unless you reinstall.

4. Troubleshooting Activation

'Invalid key' error

- Double-check that you copied the entire key with no extra spaces
- Ensure you are using the key for Signal Forge (not VoxForge, CSai, or Business Suite)
- Try copying the key fresh from your Payhip email

'Already activated on another machine'

Your license works on your personal machines — for example, your desktop and your laptop. If you run into an issue, contact support@angrypig.studio with your order number and we will sort it out.

Lost your key?

Check your email for the original Payhip receipt. If you cannot find it, contact support@angrypig.studio with the email address you used to purchase.

5. Support

For activation issues or any other questions:

- Email: support@angrypig.studio
- Website: angrypig.studio

We typically respond within 24 hours.
